## Existing and Proposed Uses

Please describe the current use: \* (Max 500 characters)

Malleny Gardens, located in the grounds of Malleny House, is a public garden open to visitors and enclosed within a historic boundary wall. The site produces indigenous plants and shrubs including vegetables and other produce which are sold at local markets. The garden also provides open rentable space to local community groups to enhance community social integration while promoting sustainable cultivation of produce. The site generates medium levels of green and brown garden waste.

Please describe the proposed use: \* (Max 500 characters)

The proposed plan will erect a freestanding compost bay structure using precast concrete members and timber boards to enhance compost production on site. The additional of the structure will relocate production away from the historic boundary wall to prevent future deterioration of brickwork to provide a dedicated facility, hidden from view, outside of the immediate grounds. This facility will reduce the volume of waste transferred off site while improving the quality of compost produced.
